Office Action Summary

Art Unit: 1754

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wood et al.

Wood teaches in column 16-17 making a Pd catalyst (with promoters), reducing it and storing it in inert gas. Shipping/selling it is an obvious expedient to make a profit and preventing re-oxidation is an obvious expedient to preserve the catalytic activity. Using the claimed gases is an obvious expedient to provide an inexpensive preservative; the examiner takes Official Notice that nitrogen helium, etc. claimed are old and known as nonoxidizing. Method of use recitations (claims 11-13) do not limit the catalyst. Using the claimed promoters in the claimed amounts is an obvious expedient to gain effective catalytic activity.

Claim 14 is rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Wood et al. 4748145.

Wood makes the same catalyst even though possibly stored differently; no differences are seen.
